

	Pamantasan ng Lungsod ng Valenzuela STUDENT'S EVALUATION OF INTERNSHIP	Document No.: CEIT-OJTF-011 Number of Pages: 3
College:	College of Engineering and Information Technology	Revised: 11/20/2025

Name of Intern: Russel G. Havana

Course/Student No.: 22-3118

Name of Company: Northgate Technologies Inc.

Site Internship Supervisor: Mr. Carl Jayvie F. Manatad

OJT Coordinator: Ms. Sherilene Pamintuan

Directions: Please evaluate **honestly** the following items described by encircling the appropriate rating. If any criteria are not applicable to the internship experience, please leave the response blank. Responses in this document will not be transmitted to the HTE and will be kept in respective Departments for record purposes only.

- | | |
|-----------------|---|
| 1 – Poor | Never demonstrates the experience/does not meet expectations. |
| 2 – Fair | Sometimes demonstrates the experience/meets expectations. |
| 3 – Good | Usually demonstrates the experience/sometimes exceeds expectations. |
| 4 – Exceptional | Always demonstrates the experience/consistently exceeds expectations. |

Part I. HTE/Company Experience

A. Site Experience

1. The physical surroundings were secure.	1	2	3	4
2. The HTE conducted a session for orientation.	1	2	3	4
3. The projects assigned had access to enough resources necessary for successful completion.	1	2	3	4
4. Colleagues were supportive and accommodating.	1	2	3	4

B. OJT Supervisor Experience

1. A precise job description was given by the OJT Supervisor.	1	2	3	4
2. Consistent feedback was provided regarding my performance and skills.	1	2	3	4
3. Measures were taken to ensure that the OJT experience was a valuable learning experience.	1	2	3	4
4. The OJT Supervisor assigned duties that matched my competencies and abilities.	1	2	3	4
5. The OJT Supervisor was accommodating of the agreed-upon work schedule.	1	2	3	4

C. Learning Experience

1. The work experience aligned with my academic field and future career aspirations.	1	2	3	4
2. I was given chances to enhance my abilities in verbal communication and presentation.	1	2	3	4
3. I had opportunities to improve my skills in building relationships and interacting with others.	1	2	3	4
4. I was given opportunities to foster my creativity.	1	2	3	4
5. I was presented with occasions to strengthen my problem-solving capabilities.	1	2	3	4
6. I was given chances to develop my critical thinking skills during the experience.	1	2	3	4
7. I was given opportunities to enhance my writing abilities.	1	2	3	4
8. This experience has assisted me in preparing for a career in my field.	1	2	3	4

Part II. HEI/Institutional Experience

D. HEI OJT Program Experience

1. The school prepared me well for the OJT process.	1	2	3	4
2. I received sufficient information and guidance on the OJT process and placement.	1	2	3	4
3. I felt supported by the school throughout my internship.	1	2	3	4
4. The school's communication systems were effective in keeping me informed during my internship.	1	2	3	4
5. The academic coursework equipped me with the professional knowledge and necessary skills for the internship.	1	2	3	4
6. The OJT goals and objectives were clearly communicated to me.	1	2	3	4
7. The OJT experience was valuable for my personal and professional growth.	1	2	3	4
8. I am satisfied with the OJT process conducted by the school.	1	2	3	4

E. OJT Coordinator Experience

1. Clear instructions and guidance were provided by the OJT Coordinator throughout the internship.	1	2	3	4
2. The OJT Coordinator helped me identify and achieve my internship goals.	1	2	3	4
3. The OJT Coordinator was available and responsive to my questions, queries, and concerns during the internship.	1	2	3	4
4. The OJT Coordinator provided adequate supervision and feedback on my performance during the internship.	1	2	3	4
5. The OJT Coordinator helped me navigate any challenges or issues that arose during the internship.	1	2	3	4

Part III. Assessment

Check or encircle the rating or option that best describes each criterion.

1. Overall, how would you rate this internship?	1	2	3	4
2. Was the internship paid?	<input checked="" type="radio"/> Yes			No
If yes, what type of compensation did you receive?	Hourly	Daily	Stipend/Allowance	
Indicate amount (in Philippine pesos)	50 PHP			
3. Would you recommend this internship to other students?	1	2	3	4
4. Would you work for this OJT Supervisor again?	1	2	3	4
5. Would you work for this OJT Coordinator again?	1	2	3	4
6. Would you recommend this HTE to other students who will take internship in the future?	1	2	3	4

Part IV. General Comments

Answer each question completely and legibly.

1. What was the most valuable aspect of the internship?

➤ As a QA Intern at Northgate Technologies Inc., I was able to participate in actual hardware checking of units and peripherals, including inspection, testing, and verification of device performance and quality. This practical exposure strengthened my technical skills and enhanced my attention to detail in identifying defects and ensuring compliance with quality standards. In addition, the seminars offered by NTI provided valuable learning opportunities on industry practices, workplace standards, and emerging technologies, which broadened my understanding beyond technical tasks. These experiences helped me develop both my technical competence and professional awareness, making the internship highly beneficial to my overall growth.

2. What was the least valuable aspect of the internship?

➤ The least valuable aspect of the internship was performing highly repetitive tasks that offered limited opportunities for deeper learning. Some activities involved routine hardware checking procedures that, while important for maintaining consistency and quality, became repetitive over time and provided fewer chances to apply new skills or explore more complex technical processes. Although these tasks helped reinforce accuracy and discipline, they contributed less to skill development compared to hands-on troubleshooting and learning-based activities such as seminars and advanced inspections.

3. Is there anything, problems or concerns, related to your internship experience that we should be aware of?

➤ There were no major problems or serious concerns related to my internship experience. The overall work environment at Northgate Technologies Inc. was well-organized and supportive, and the supervisors provided clear instructions and guidance throughout the internship. Minor adjustments were needed at the beginning, particularly in adapting to the company's workflow, hardware testing procedures, and documentation standards, but these were resolved through proper orientation and continuous supervision. Overall, the experience was smooth, productive, and beneficial to my professional development.

College:	College of Engineering and Information Technology	Revised: 11/20/2025

4. Can you suggest any ways to improve the internship experience in the future?

- To improve the internship experience in the future, providing more exposure to diverse tasks and advanced QA procedures would be highly beneficial. Allowing interns to rotate across different hardware testing areas, participate in more in-depth troubleshooting, and observe or assist in higher-level diagnostic processes would further enhance learning. Additionally, expanding the number of technical seminars and incorporating hands-on workshop sessions could strengthen both practical and theoretical understanding. Regular feedback sessions between supervisors and interns would also help guide performance and clarify areas for improvement, ensuring a more engaging and well-rounded internship experience.

Thank you very much!

Signature Havana, Russel G.
