On behalf of Pamantasan ng Lungsod ng Valenzuela, we are writing to request your esteemed institution's assistance in facilitating the On-the-Job Training (OJT) program for our **BS Information Technology third-year students**.

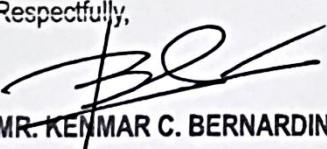

The program requires our students to undergo a minimum of **486 hours of OJT** in public and/or private offices as part of their graduation requirements. We humbly ask that your office consider accommodating our students listed below as they aim to complete their program successfully. We are open to any additional requirements your institution may request for the benefit of both our students and your organization.
